Kluivert Edegware

Mobile App Engineer · Flutter and native Android · Rivers, Nigeria · Remote

edkluivert@gmail.com +234 904 755 0339 linkedin.com/in/kluivert-edegware-913882172
github.com/edkluivert edkluivert.github.io/kluivert_portfolio

Mobile engineer with six years shipping Flutter and native Android apps for fintech, property, education and marketplaces, remotely for teams in Nigeria, the United States and Germany. Ten apps live on Google Play and the App Store. I own the whole lifecycle: architecture, payments and security, store release, and the crash-free rate once real users are on it.

EXPERIENCE

Funkash · Mobile App Developer
May 2025 – Jan 2026 · May 2026 – present · Remote

- Build and run two enterprise Flutter apps, a corporate spend platform (cards, expenses, approvals, KYC) and an EV-charging platform (customer and operator apps), at a 99% crash-free rate on Android and iOS.
- Clean architecture and reusable components lifted stability 35% and cut new-feature time 30%.
- Payments and e-wallet integration, Firebase authentication, runtime app protection and behavioural biometrics on sensitive flows.

Concept Colony · Mobile App Developer · Contract
Mar – Oct 2026 · Remote

- Built Custovia, an escrow-backed service marketplace, from first commit to Google Play: passkeys, KYC, wallet, disputes and WebSocket chat.

Bitex Consultancy · Mobile App Developer
Sep 2024 – Feb 2026 · Remote, US

- Led the Acire23 user and provider apps end to end, from UI workflows to backend integration and real-time notifications.
- Built an events app for property launches. Performance monitoring and systematic fixes cut support tickets 30%.

Asataura · Flutter Developer
Aug 2024 – Jan 2026 · Remote, Kano

- MySlates student, parent, teacher and admin apps. Gamified learning modules raised course completion 40% and platform revenue 20%.
- SwaySpa and FluxesSpark Parents: automated backend processes and content delivery, saving about 25% in operating cost.

Expectoo · Flutter Developer
May 2022 – Sep 2024 · Remote, Germany

- Modernised Yachtino's legacy Flutter apps: maintenance cost down 20%, responsiveness up 30% across production releases.
- Set coding milestones with project managers, shortening schedules 15% while meeting client deadlines.

Helixgade · Mobile App Developer
Apr – Jul 2021 · Remote

- Secure electronic-voting app on Flutter and Firebase, a marketplace rebuilt on Cloud Firestore, and a real-time task manager.

Zebulon Developers · Android Developer
Jan – Mar 2021 · Remote

- Photography app with an image-processing pipeline and a redesigned event-discovery flow on native Android.

Andela · Mentor, Google Developers Program — 2019 – 2020 · Remote

- Mentored an Android cohort with weekly tasks and code reviews. Completion rates up 30%.

APPS IN PRODUCTION

Tharwa EV Funkash · 2026	Multi-operator EV-charging app for Nigeria: station finder with live pricing, wallet payments, live sessions.	Google Play App Store
Tharwa EV Operator Funkash · 2026	Station-side app for charging operators: live queue, driver bookings, walk-in bookings.	Google Play App Store
Custovia Concept Colony · 2026	Service marketplace built from scratch: passkey sign-in, wallet and payments, bookings, chat and disputes.	Google Play
Acire23 Network Bitex Consultancy · 2024–26	Two-sided real-estate platform, user and provider apps. Listing time halved, search engagement up 40%.	Google Play
MySlates Asataura · 2024–26	School platform for students, parents, teachers and admins. Results, report cards, quizzes. 5K+ installs, 4.1★.	Google Play
SwaySpa Asataura · 2024–26	Spa discovery and booking. 4.6★ on Google Play.	Google Play App Store
Yachtall Yachtino GmbH · 2022–24	Europe's boat marketplace. API rebuild, seven languages, design fixes. 10K+ installs, feature adoption up 30%.	Google Play App Store
Boote Yachten Yachtino GmbH · 2022–24	Sister marketplace for the German market. Reusable components and a tuned search. 5K+ installs.	Google Play App Store
Happycharter Yachtino GmbH · 2022–24	Worldwide yacht-charter search. Project setup, API framework, search and bookmarks.	App Store
Limpiador Limpiar · 2024	Agent app for a property-services company. Guest mode, task tracking, analytics, e-wallet payments.	Google Play App Store

SKILLS

Mobile	Flutter, Dart, Kotlin, Java, Jetpack Compose, Android SDK, iOS and Xcode
Architecture	Clean architecture, Bloc, GetX, dependency injection (get_it, injectable), Kotlin Coroutines and Flow, Dagger 2
Backend and data	REST, WebSockets, Firebase (Auth, Firestore, Messaging, Crashlytics), Dio, offline sync
Security	Passkeys, biometrics, secure storage, root and hook detection (RASP), behavioural biometrics SDKs
Delivery	Git, GitHub, GitLab, GitHub Actions CI/CD, unit and widget tests, Play Console, App Store Connect, Sentry, Figma, Agile with Jira

OPEN SOURCE AND PERSONAL PROJECTS

translation_manager	Locale detection and Bloc-friendly translations. 160/160 pub points.
solid_x	Reactive state management in the ViewModel and StateFlow style. 160/160.
getx_exten	Bloc-style listener and consumer widgets for GetX. 160/160.
dartpub.dev	11 DartNative plugins in 13 active apps, incl. mapbox_kit.
Crisp, Shuttle	HD media to WhatsApp Status; file transfer over LAN or USB. Flutter.

EDUCATION

University of Port Harcourt · B.Sc. Mathematics and Statistics · Rivers, Nigeria · 2023
