Mobile engineer with six years shipping Flutter and native Android apps for fintech, property, education and marketplaces, for teams in Nigeria, the United States and Germany. Eight apps live on Google Play, four of them on the App Store too, one with 10K+ installs. I own the whole lifecycle: architecture and API design, payments and security, store release, and the crash-free rate once real users are on it.

SELECTED WORK

Custovia Concept Colony · 2025–26

Service marketplace built from scratch: passkey sign-in with cross-device revocation, wallet and payments, bookings, chat and disputes.

[Google Play](#)

Yachtall boat exchange

Yachtino GmbH, DE · 2022–24
Overhauled Europe's boat-marketplace app: API rebuild, seven languages, design fixes. 10K+ installs; feature adoption up 30%.

[Google Play](#) [App Store](#)

Boote Yachten · Happycharter

Yachtino GmbH · 2022–24
Sister marketplace and worldwide charter search. Project setup, API framework, reusable components, search and bookmarks.

[Play](#) [App Store](#) [Happycharter](#) [iOS](#)

Acire23 Network

Bitex Consultancy, US · 2024–26
Two-sided real-estate platform, user and provider apps, led end to end. Listing time halved, search engagement up 40%.

[Google Play](#)

MySlates Asataura · 2024–26

Four-app school platform for students, parents, teachers and admins. Results, report cards and gamified quizzes; completion up 40%. 5K+ installs, 4.1★.

[Google Play](#)

SwaySpa · Limpiador

Asataura · Limpiar
Spa discovery and booking (4.6★, Play and App Store). Property-services agent app with guest mode, task tracking and e-wallet payments.

SKILLS

Mobile

Flutter, Dart, Kotlin, Java, Jetpack
Compose, Android SDK, iOS & Xcode

Architecture

Clean architecture, Bloc, GetX,
dependency injection (get_it,
injectable), Kotlin Coroutines & Flow,
Dagger 2

Backend & data

REST, WebSockets, Firebase (Auth,
Firestore, Messaging, Crashlytics),
Dio, offline sync

Security

Passkeys, biometrics, secure
storage, root and hook detection
(RASP), behavioural biometrics SDKs

Delivery

Git, GitHub, GitLab, CI/CD, Play
Console, App Store Connect, Sentry,
Figma, Agile with Jira

EXPERIENCE

May 2025 – present
Remote

Funkash · Mobile App Developer

- Build and run two enterprise Flutter apps, a corporate spend platform (cards, expenses, approvals, KYC) and an EV-charging platform (customer and operator apps), at a 99% crash-free rate on Android and iOS.
- Clean architecture and reusable components lifted stability 35% and cut new-feature time 30%.

translation_manager

Locale detection and Bloc-friendly translations. 160/160 points.

solid_x

Reactive state management, ViewModel + StateFlow style. 160/160.

getx_exten

Bloc-style listener and consumer widgets for GetX. 160/160.

OWN PRODUCTS**Crisp**

HD photo and video to WhatsApp Status. Open source.

Shuttle

Local file transfer over LAN or USB. Open source.

Cordon

Android privacy guard that sandboxes data-harvesting apps.

EDUCATION**B.Sc. Mathematics and Statistics**

University of Port Harcourt, Rivers, Nigeria

- Payments and e-wallet integration, Firebase authentication (onboarding success up 40%), runtime app protection and behavioural biometrics on sensitive flows.

Sep 2024 – Feb 2026
Remote · US

Bitex Consultancy · Mobile App Developer

- Led the Acire23 user and provider apps end to end, from UI workflows to backend integration and real-time notifications.
- Built an events app for property launches; performance monitoring and systematic fixes cut support tickets 30%.

Aug 2024 – Jan 2026
Remote · Kano

Asataura · Flutter Developer

- MySlates student, parent, teacher and admin apps; gamified learning modules raised course completion 40% and platform revenue 20%.
- SwaySpa and FluxesSpark Parents: automated backend processes and content delivery, saving about 25% in operating cost.

May 2022 – Sep 2024
Remote · Germany

Expectoo · Flutter Developer

- Modernised Yachtino's legacy Flutter apps (Yachtall, Boote Yachten, Happycharter): maintenance cost down 20%, responsiveness up 30% across production releases.
- Set coding milestones with project managers, shortening schedules 15% while meeting client deadlines.

Apr – Jul 2021
Remote

Helixgade · Mobile App Developer

- Secure electronic-voting app on Flutter and Firebase; marketplace rebuilt on Cloud Firestore; real-time task manager.

Jan – Mar 2021
Remote

Zebulon Developers · Android Developer

- Photography app with an image-processing pipeline and a redesigned event-discovery flow on native Android.

May – Nov 2019

Andela · Mentor, Google Developers Program

- Mentored an Android cohort with weekly tasks and code reviews; completion rates up 30%.
